J.M.RATHI ENGLISH SCHOOL & JUNIOR COLLEGE

Jyoth Rath

Affiliated to CBSE

23rd Issue

2018-19

School Vision

Global wellbeing with
Best practices in education and
Inculcating universal values.

School Mission

Serving society by providing skilled,
Learned and compassionate human
Beings with values.

Our Values

Resilience, Our Anchor
Integrity, the Foundation
Synergy in Diversity
Excellence, Our Goal

Director's Message

It is with a sense of pride that I pen down that J.M.Rathi English School and Junior College is now a CBSE affiliated school. Needless to say this is a huge achievement- a leap forward for the JMRES family and its stakeholders. Our school started with a humble beginning of 40 children, which is today a strength of more than 1600 students and 100 staff. It has grown from a sapling to spread its branches and moved ahead towards the road to excellence.

As we enter the 45th year of our school, two things come to my mind.

Educating the mind without educating the heart is no education at all. -Aristotle

Our existing education system is oriented towards material development neglecting inner values consequently; we lack a clear awareness of the inner values that are the basis of a happy life- His Holiness, The Dalai Lama

The world today is changing at an accelerated rate. We as educators need to constantly sit back and reflect. Is our school well equipped to prepare our children to face the challenges that the future holds for them? Are they armed to make selections from the plethora of career choices ahead of them? Are they skilled not only from a job perspective but also from the social emotional angle? Are we instilling the right attitude and values to our children to pursue their dreams in the future? Do we ignite these young minds and mould them into being responsible citizens ready for a globalised world?

Our team constantly keeps questioning this and keeps going back to the table to design and then implement a well-balanced holistic curriculum to ensure that we keep living up to our Vision that our boys and girls grow as world class citizens, a generation of outstanding thinkers and wise planners contributing to a better world.

Director
MS. RACHNA RATHI

Chairman's Message

Reaching out to the community has always been a philosophy of Sudarshan Chemicals. With the motive to empower children from the community and society with the best educational facilities, JM Rathi English School & Junior College was established in 1975 By Shri Jagannath Rathi Charity Trust.

Understanding the need of the hour, JMRES was in the process of switching over from a State board to CBSE, a National centralized board and that long waiting dream has come to fulfillment. We have shifted from Maharashtra state Board to CBSE board and this is really a feather in our cap and incredible moment for all of us. I congratulate Trustees, Director, Principal, Vice Principal and staff of J.M. Rathi English School and Junior College, and the parents for the wholehearted continual cooperation in this process.

None of the achievements would have been possible without the single-minded commitment and dedicated care of our Staff, we are constantly encouraged by our Parents who have shown much confidence and gave their full support.

At JMRES, the child is firmly at the heart, of our work. We seek to develop the whole child by providing students with meaningful and connected learning experiences with a focus on Value based education. We have made significant progress and enhancement in our approach, programmes and school outcomes.

I extend my warm wishes to the Principal, Vice Principal, Staff and Students of J M Rathi English School and Junior College to continue this journey on the road of excellence.....

Our former honorable president of India, Dr. A P J Abdul Kalam in his book 'India 2020: A vision of the new millennium writes

“If you are a teacher in whatever capacity, you have a very special role to play because more than anybody else it is you who are shaping the future generation.”

Chairman
Mr. B. N. Kadam

Principal's Message

"The best way to predict the future is to create it" Abraham Lincoln

Hey! He looks like his father... No... no,... she is just like her mother... I am sure that all the readers of this article must have come across these type of talks when the new baby is born. Believe me the next very statement would be, he will be an engineer like his father or a good singer like her grandmother etc... Are you getting nostalgic? In other words, we all start thinking about the future. The quote from great Abraham Lincoln would put us on the right track.

This scenario plays out more often than some parents would care to admit, they longed to be a famous astronaut, doctor, engineer etc. and because those dreams were not fulfilled, they push their own children into fulfilling them instead. How long would you want your child to live your own unrequited dreams? How long would you see your child as an extension of yourself?

Change is inevitable. Time has come to realize that your child is an independent individual with separate feelings, characters, emotions and innate talents. Hence, there is an easier way to raise an innovative child other than forcing your unrealized dreams on him or her.

Here I would strongly suggest that you can encourage your child's inner creativity so that he or she can grow up curious and excited to experiment and embrace the whole world around. Be open-minded; be on the lookout for activities that make your child excited. Does he enjoy assembling complicated jigsaw puzzles? Does she like getting messy in the yard growing her own plants? Maybe you're running out of crayons and paper because he loves to draw? Keep checking his or her interest and help them to grow innovative.

As I was reflecting further, over the mentioned topic, the biography of two great personalities flashed through my mind. Stephen R Covey, the author and award winner of the book, Seven habits of highly effective people. He thought this child should be as good as the other children in the world not realizing that his child is unique and has his own creativity. Secondly the pillar of modern physics, Albert Einstein whose mother created an environment at home for him to become a great scientist. So creating environment without any biased thought can help the child to fulfill God's plan.

Are you ready to face the fact that your child has his / her own dreams and hope? "The best I can say is that as parents, you can engineer the life you want your kids to have, but it may not be the life they want to have". You have to encourage them to pursue their passions. And you have to spend more time on them than you spend on anything else.

At the end, I would go with the lines of Swami Vivekananda "Education is manifestation of divine perfection that is already in Man". So let us all join our hands to achieve this perfection in our children.

Principal
Ms Leena David

Vice- Principal's Message

It is a great privilege for me to be a part of Jyothrath....

Great Philosopher Nani Palkhiwala says, "Enlightened citizens cannot be produced in the factory, it has to come through education."

What can empower a nation that, in recent times, has earned the credibility of becoming an intellectual capital of the world? The answer, for me, is obvious. It is education.

Education that is value based, Education that is man making, Education that is character building Education that imparts roots and gives wings.

The only way to convert the liability of having a population of over a billion is to educate them, which in turn will empower them to dream of building a new India, as it hurtles forward towards a future that can be exciting, as we cannot even imagine.

We at JMRES focus on the kind of education system, that would help every student reach his or her maximum potential, and empower them with a strong sense of self and to acquire new skills that will help to build as all rounded a personality as possible.

We at JMRES see to that, education system adds incredible value but at the same time it should not create stress for parents and students, we also focus at - does education equip students with real and contemporary skills that can make him or her a winner in the real world...

We are trying to give the method of imparting education a directional change in the way it required. The results undoubtedly, would be astounding. We cannot believe that there can be better way to empower our students and country at large, than this. Education does not mean teaching people to know what they do not know, it means teaching them to behave as they do not behave.

Let me wind up with the words of Dr. Radhakrishnan " you cannot make or build the nation by just bricks; you have to establish the minds of the young people, then alone can the nation building take place".....and there education plays important role.

Vice-Principal
Mr. Deepak Mane

Unit Head [Secondary]

The purpose of education is to teach the basics, more than that to create the spark, the curiosity, the creativity, the confidence, the zest for further knowledge that helps a person grow beyond what they believe they can be. It's a lot to hope for but we have watched it happen time and again... education changes the scope of the world.

Education teaches and prepares children and youth to meet the future needs to function in a society not only academically, but emotional, socially, spiritually and economically. Education gives you the power to believe in yourself and the knowledge to feel accepted, value and love. Parents are the first educators to develop this confidence and self-esteem to believe in education. Teachers are the second educators, they need to believe that every child is teachable and set high expectations for them and for themselves.

India has made progress in increasing the attainment rate of primary education. As per the education report 2012, 96.5% of all rural children between the ages of 6-14 were enrolled in school.

Every human being needs oxygen to survive in the world. Education is as important as this because education gives people the knowledge and skills they require. Education is important to people of all ages it has no limit. Children require education in order for them to learn how to speak and write.

So.... "Education is the key to the future, for tomorrow belongs to those who prepare for it today.

Ms. Pallavi Sarolkar

Unit Head [Primary]

"Never doubt yourself; you are the Master of your own destiny."

Education plays an important role in enabling a person face a real life situation with adequate knowledge. School is temple of learning and in JMRES; we are making our best effort to give quality education to our students.

We choose a theme for the academic session and conduct different activities based on the theme.

I wish to brief about our Theme for the year 2018-19 -"Communication To inspire, Educate and empower."

To get the Theme percolated, different activities were conducted throughout the year. The standard III students interacted with KES students and made the comparative Data Analysis of the facilities available at both the schools.

Also the class IV students interacted with the women of Roth and Varse and understood the problems faced by them. The day to day activities, the night camp, the field trips, the annual day, the Expo and the club activities made the Theme really to get hands on to each individual at JMRES.

Some people believe and develop a plan;

Some people doubt, never think that they can;

Some people face hurdles and give it their best;

Some people back down when faced with the test;

We all have a choice; we all have to say;

We are spectators in life, or we get in and play;

Whichever we choose how we handle life's game;

The choices are ours; no one else is to blame.

Therefore, let us accept the challenges as a team and march ahead hand in hand to make a little difference. Wishing each student of JMRES a joyful, fun cum learning for the Academic session 2019-20.

Ms. Piedade D'souza

Unit Head [Pre-Primary]

A small spark ignites a flame. This flame of knowledge enlightens the darkness of ignorance. It is a kind of journey, juncture that begins in the initial stage of education.

Being a unit head of preprimary, I get this great opportunity to be with the tiny tots. They are so inquisitive in their pure world of their pure thoughts and queries.

It is worth to enjoy with them. The Pre Primary section of our school is paradise where these multitalented scientists, reasoners get freedom to respond their inner calling. We just don't provide conducive environment but we, the teaching faculty involve and engross ourselves with them. We organize space-time and activities to be in sync with children's social, emotional, cognitive and physical abilities. We get the opportunity to enjoy the childhood through all their different activities.

Ms. Tejashree Chalke

From the Students' Editorial Board

It is our honour to be a member of 'Editorial Board' of the J. M. RATHI ENGLISH SCHOOL AND JUNIOR COLLEGE.

JyotRath the school magazine is a great way for students to express themselves as it provides a free rostrum to speak their minds. We felt jubilant when we were elected as the editors.

Slowly but surely we understood our tasks as editors, and got engrossed in it. In a little while, we were flooded with the articles, poems and stories from the students. Our next task was to analyze the data. We along with our crew and the teachers started to rescript the articles. It was puzzling for us, as there were many fascinating, thought provoking articles written by the students.

At last, we sorted out the best ones. Hope you will relish reading them and admire the efforts of entire team.

Gargi Sarolkar & Samidha Patil

Orientation Programme

To begin the new session with an enthusiasm is an exciting moment for every Rathian. The inquisitive minds were waiting to know more about subject teachers. This is how every year Scenario could be described at the time of Orientation. This year too we had Orientation on 3rd to 6th of April 2018. This year we had a novelty. The Principal welcomed all the parents & students by boosting the moral of them. Every teacher introduced themselves with their classes and subjects.

In the orientation programme, the theme of the year 'Communication' was communicated in a different way. Mr. Amit Raje & Mr. Anil Nakate conducted the activity with the involvement of parents to communicate the theme. Everybody enjoyed the novelty and the attempt of parents.

Some teachers presented graceful dance 'Praying the Lord Almighty'.

Nidhi Mhaske, Std IXB

HAPPY INDEPENDENCE DAY

It was that time of the year, when Rathians in all-whites were seen marching towards the school. The 72nd Independence Day arrived and the hall echoed with Jana-Gana-Mana, School anthem and patriotic songs sung by choir group. The day became much pleasure with esteem presence of Mr. Rajesh Rathi accompanied by Madam Principal and Sir Vice Principal.

The flag was hoisted by the dignitaries and the students went towards hall for the further function. The speeches were delivered flawlessly by both students and teachers. Further the students were inspired by the speech delivered by Mr. Rajesh Rathi. Sweets were distributed to the students on their way home.

Samidha Patil - Std. XI

Investiture Ceremony

'A leader is the one who knows the way, goes the way and shows the way.'

The Investiture Ceremony 2018-19 was held with great pomp and dignity in special ceremony at the school auditorium. It was conducted with the high degree of earnestness and passion.

The Investiture Ceremony signifies the reliance and confidence that school consigns in newly invested senators. Donning, the mantle of accountability, they also pledge to bestow their duties to the best of their abilities. The ceremony was held with lots of zeal and zest. It was commenced with the lighting of the lamp followed by "Sarasvativandana", which signified removal of darkness.

Senators were conferred with badges and sashes by Honorable chief guest Mr. B.N. Kadam along with their parents. The senators took the pledge to hold the school motto of Loyalty, truth & Honor in high esteem. The chief Guest addressed the students. The newly elected Head boy and Head girl also delivered their speeches. The school co-ordinator gave vote of thanks. The function concluded with National Anthem.

Samiksha Patil - IX-A

Teachers' Day

A very important part of a student's life is the teacher. The teacher is a person who plays a very important role in the development of the student. A teacher gives all of her / his efforts for the betterment of her / his students.

Therefore, to thank and to appreciate these efforts of our beloved teachers, we celebrate Teachers' Day every year on 5th of September. We the students of Std XII took an initiative to show the love, respect and gratitude towards our beloved teachers.

The teachers' day programme started with a great bash. The programme was organized by the students of Std XII. The programme began with a musical entry for our teachers, with a greeting card and a rose, which was a token of love towards our teachers.

The programme gloomed with the mesmerizing dance and drama performances by our students. Our Respected Sir Vice-Principal addressed our friends with his words of wisdom.

The staff appreciated the hard efforts of the students. The staff was felicitated by the Management with gifts as token of love, followed by delicious lunch.

The programme found its conclusion with Vote of Thanks. Each one of us will fondly remember the day.

Rohit T.P & Juveriya Nadkar
Std XII

The First Night Camp

Camp activities bring out the hidden talent that some of the parents might have not yet discovered in their kids. JMRES had designed to push children to think creatively as far as possible and embrace the value of discipline. In addition to great friendship memories, many important life skills are learned at camp. In camp child gets a chance to explore areas and fields and help them gain self confidence, learn new skills, public speaking, etc. This provides experiential education that leads to self-respect and appreciation for life. At camp children learn the importance of working hard to accomplish what they want. Students built positive relationships with their peers.

The aim behind the night camp was at self-management and direct learning, which would also break the monotony of student's schedule. Night camps were arranged for Std I to VIII. Different games and activities were conducted by the teachers for the learning and entertainment for the students.

Mr. Madan More and Mrs. Sangeeta More Ventriloquist performed the puppet show. Dr. Rucha Dalmia addressed students about Dental care. Students showed their talent including magic tricks and singing songs.

Sister Hilde and her team addressed and conducted activity in different groups on values by showing video clip. Sister Brigit guided our students on complimentary relationship. All students had an excellent experience in night camp conducted in the school. The school arranges such night camps for students every year and for each class.

Vedant Pawar & Ashlesha Yadav
IVA VIIIA

Grandparents' Day

It was one-day celebration. The students of Nursery, Jr. KG, Sr. KG classes performed various items.

Grandparents were welcomed with a flower & greeting card. The children performed different dances beautifully, the grandparents were happy to see their children performance.

Grandparents actively participated in all the games. The grandparents expressed freely about this day. They were happy that this day was celebrated. It was indeed a highly emotional and satisfying day for them.

The Principal and Vice- Principal encouraged the audience by their motivational speeches. The grandparents were very thankful to the management for organizing such a special day for them.

Fathers' Day

The Pre-Primary Children Celebrated the Father's day on 20th Feb. Our unit Head Tejashri madam welcomed the Father.

The Children danced and sang song for their father with heartwarming expression. Games were taken for the Fathers. The Father's sportingly participated in the game.

Fathers expressed their feelings about the occasion. They also appreciated the efforts of the teachers

They expressed that such types of events should be arranged to build the bond with the Children.

In the end the teacher thanked the Fathers for making this day success.

Kunika Rohekar

Incredible Childrens' Day!

As a tribute to 'Chacha Nehru' and his love for children, the school celebrated Children's Day on 26/12/2018. As we know, children are loved by everyone. They win the hearts with their innocent smiles. Activities were organized by the teachers to amuse and entertain the children on the occasion. The teachers welcomed the children in the class with the pretty batches of different shapes with their names written on it. The teachers came in Jeans and T-shirt with a variety of delightful performances of Lazy dance and then followed by skit on the importance of outdoor games. The little ones were excited to spot their teachers emerge from the classroom and take on those unusual roles. Their constant cheering prompted the teachers to put forward their best.

Our day started, with having a great party in Sudarshan colony. We relished the delicacies which we had brought, clicked photos and a great time with the favourite cartoon character-Mickey Mouse. The dances, quawwali and skit by the teachers were mind-blowing. Hats' off to the teachers for entertaining us.

It was indeed a memorable day to remember forever.

Pia Vaibhav Sontakke & Naqiya Rohawala
II C IX A

Fancy Dress

Fancy dress competition was one of the most important tool of learning. The purpose of conducting this competition is to not only blend learning with fun but also develop confidence in children by giving them opportunity to get on stage.

Fancy dress competition was conducted, in the school. Children were given, an opportunity to exhibit themselves in various characters.

Through their characters, they gave the message of how to live healthy and need of saving our environment.

Pet Show

Pet show activity was a chance for all learners to observe real animals like birds, turtles, cat and dog. Pets have a big impact on family lives and they help children to learn the skills of love and care.

The parents were called with their pets. They communicated with the children the need of the love and care for pet animals.

Children were excited to see the pets. Pet show helped children to enrich the classroom experience. Even kids with no exposure to animals or nature in their home environment had seen, felt, touched and made connection with the animals.

A pet brings increased sensitivity and awareness of the feelings and need of others both animals and humans.

The activity was truly successful. The children were happy and learned the values of the animals in the life.

Community Helpers

The people who perform jobs that assist the community are called community helpers. Examples of Community helpers include Doctors, Dentist, etc.

Community helpers are important because they make our lives better, they keep us and the community safe and help our community to function systematically. The Doctor, Watchman, Mavshi and Firemen were called to explain and give information about their work. They demonstrated their work in a simple way to the children.

Children understood the importance of community helpers through their work. In return children owe their respect to each of the community helper.

Importances of Eco-Club.

“Society lives by faith and develops by science”.

Eco club plays an important role in creating environmental awareness amongst the future generation. It is a platform from where we get knowledge about environment. It also enables the students to be sensitive towards environment concern to tackle environmental problem. So our school has introduce this club in 2018. Here children of primary learnt to make the newspaper bags, dustbin bags, from plastic bottles they learnt and made decorative articles like pen stand, flower vase, wall hanging from bangles, paper weight out of stone in all they learnt to make things from waste to best.

Yani Jain.- IV B

Annual Sports Meet

'You are never a loser until you quit trying'. It is important for a child to play some sport. Playing sports regularly keeps children fit forever. They learn to have sporting spirit too.

Every year our school organizes the 'Annual Sports Day'. This year sports meet was held on 23rd, 24th and 25th January 2019 for and on 25th January for Primary and Secondary. On 4th, 5th & 6th December for Pre-Primary.

The sports meet was held on our school playground at regular school hours. Our sports teacher conducted all the events with the help of other teachers. There are four houses, for instance Ruby, Emerald, Sapphire and Topaz. The playground was very meticulously done up. Tracks were marked with lime powder and other grounds were also marked. Victory stand was beautifully decorated to make the winners feel proud of being there after the event. All students wore sports uniform.

Events begin with the Athletic races such as 80m. Running, 200m. Running. Other events like Relay, Hurdles, short put, long jump, discuss throw etc. in a disciplined manner. All the students performed with great energy and enthusiasm.

The winners were listed and appreciated by principal madam with medals and certificates.

The biggest moment for winners is loud applause and cheering.

'The Thrill, the Excitement and the Pleasure of winning were all moments worth seeing and enjoying'.

Sariva Sardar - VIII C

YOGA DAY CELEBRATION

Yoga Day is celebrated annually on 21st June since its inception in 2015. Yoga is a Physical, Mental and Spiritual practice originated in India. The theme of the year was **Yoga for Peace**.

As every year on 21st June 18, our school celebrated International Yoga Day with full of energy, and all the students participated enthusiastically in this session. Not only students but also teachers and our guest of honour Mr. Anant Gangaram Geete, currently the Union Cabinet Minister for Heavy Industries and Public Sector Enterprises and a former Union Cabinet Minister for Power was eager to perform yoga. We performed asanas like Padmasana, Mandukasana, Pacchimottanasana, Surya Namaskara etc. Everyone enjoyed this session and every one was rejuvenated. Keeping in view the importance of fitness of students, already the school has started yoga session on every Saturday.

Nilima Onkar

Health and Family Welfare Department of Government of India . [MR vaccination]

Rubella vaccination was schedule on 7.01.2019 in J.M.Rathi English School & Junior College in Pre- Primary, Primary and Secondary Section.

School management had provided the consent letter to the parent before implementing the scheme. The school had allotted time, standard wise. It was arranged in a systematic manner. Staff members were allotted the task of guiding the parents, few members to issue the card, nonteaching staff to take care of the hygiene in the room. Canteen facility was made available. Almost 80% students took the vaccination. The program was arranged systematically and went on smoothly.

Annual Day Function

The most awaited event of the year took place with great enthusiasm this year too. Yes, none other than the annual function of the school was this year again tagged as 'The Grand JMRES Annual Function 2018-19'.

The programme began with the traditional and auspicious lamp-lighting ceremony by our Honorable Chief Guest, Mrs. Rachana Rathi, Principal and Vice-Principal. The theme for the function was '**Communicate to inspire, empower and educate**'. The anchors along with the co-anchors brought glory to the programme. The fillers in between entertained everyone with the soothing singers and marvelous musicians.

Really, the efforts taken up by the students and teachers were emitted gracefully. The Annual Report and the Teacher Recognition ceremony took our school to the next level. Of course, the performances were the real diamonds, but the other aspects polished it and the institution of JMRES always shines brightly. At the end,

"The time passes on and the sky turns dark,

But the little stars and the gloomy grown-ups

Will always create bright memories....

I believe for sure....

Shreya S Athavale

IX C

Staff Retreat.

A staff retreat is a perfect opportunity to take a step back from the day work of organization and spend some time thinking about the bigger picture. It's a time to rejuvenate the team, get everyone excited around a united mission, set goals for the upcoming year, and build bonds between team members.

Our school staff retreat was held on 21st and 22nd September 2018, at Sudarshan Company. It was fantastic moment for each member. The retreat was conducted by Sonali Nambiar, with three trainers and educator. JMRE staff along with director of the school Mrs. Rachna Rathi enjoyed a lot. We had fun, enjoyment with learning.

The groups were made according to each member's

birth date. Through games, the task was assigned to each group of five members, to reach the goals. Each game was based on goal and objective. The day was started with action song hariyali edhar udhar, Bharat Natyam Mudras and Zumba dance .There were the games like Building factory, passing ball, sheep and shepherd, fishing and traffic jam and make sound and action by choosing any animal .Those who were the winners, they got the prizes.

At the end each members with only actions gave self-introduction. And the discussion on each game and the learning outcome. It was really a fantastic experience for the JMRES team.

Mrs. Vaishali Salvi & Mrs .Leena Carvalho.

Importance of Special Assembly.

We are all familiar with the school assembly where news is read, prayers are held and instructions are given. This year our school has started conducting special assemblies class wise. Three days a week is given to every class. Through these assemblies we developed the sense of identity. We got an insight of experiential moments with drama and skits

performed by students. The purpose of special assembly is to help building a culture of communication, nurture the inner potential and maintain a positive, healthy school culture which binds everyone together.

Sarvad Salvi.
I C

Farewell

A grand farewell was organized for our outgoing XII students. The farewell was arranged at our school auditorium on the cool evening of 30th January 2019, but the entire ambiance was so warm with outpouring emotions of the outgoing students. The day was a fiesta devoted to the years spent together with friends and teachers to reminisce joyous moments. Shri B N Kadam, the chairman of the school, was the guest on the occasion.

The ceremony started with the welcome of class XII students followed by welcome song. The judges were welcomed and introduced. The auditorium was set ablaze with a ramp walk and self introduction by class XII students. The judges put various questions and the students replied to them well.

An incredible dance item presented by class XI students was well applauded. The highlight was a power point presentation which threw fun and added life to the party.

The much awaited result of the ramp walk and modelling session was announced Rohit T.P was declared Master. JMRES and Juvaria Nadkar was declared Miss. JMRES.

Miss. Arya Mane and Master. Rohit T.P spoke about their fond memories in the school and they were so touching and heartwarming.

The Farewell Party was concluded with dance and snacks.

Kevin Johnson - XI

Science Day

Every year on 28th Feb we celebrate the National Science Day to pay tribute to the great scientist and noble prize winner Sir C. V. Raman. Science Day 2019 had an essence of uniqueness in it. The josh in students was very high.

Vice Principal Sir, also told the students about the struggles made by Sir Raman to achieve such heights in his life. The students of class IX showcased an amazing skit on the importance of bringing knowledge into practice. After all:-

"The great aim of education is not knowledge but action". - Herbert Spencer.

Om Yadav - VIII A

Shivaji Jayanti

Our school celebrated Shiv Jayanti as a tribute to the great Maratha King Chhatrapati Shivaji Maharaj. On this occasion, Madam Principal garland the statue. Mr. Amit Raje delivered a speech on this occasion. He spoke about the qualities of Shivaji Maharaj and his respect towards the motherland.

Sir Vice-Principal expressed his thoughts on the strategies and formation of the Navy. Students performed a drama and dance to pay tribute to such a great leader. This ignited the qualities in their innocent minds.

Amit Raje

The Seven Wonders

Once there was a 10-year old girl named Nisha, from a small village. She finished her primary education till fourth grade at her village. For the further studies, she had to get an admission in a secondary school at a city nearby.

Nisha was very happy to know that she was admitted in a very reputed school in the city. On the very first day of her school, she was waiting for the school bus. The bus came and she got in quickly. She was very excited.

At once, the bus reached the school. All students went to their respective classes. Nisha also went to her new classroom after asking some fellow students for direction. Upon looking at her simple clothing and knowing that she is from a small village, all the students started making fun of her. The teacher soon arrived and she controlled the situation. Then she introduced Nisha to the class.

Now, the teacher told the students to get ready for the surprise test. She told everyone to write down the Seven Wonders of the World. Everyone started writing the answer quickly. Despite all, Nisha wrote slowly.

When everyone, except the girl had submitted the answer paper, the teacher asked Nisha about her problem. She told her to continue her writing as other students had learnt it already a couple of days back.

Nisha replied that she was thinking about which seven things to pick up. She then submitted her answer sheet to the teacher. After reading the answer sheets of all the students, teacher was happy, as many of them had written the answers correctly. Lastly, she picked up Nisha's paper and started reading.

“The Seven Wonders are: to be able to see, hear, feel, laugh, think, be kind and to love.” The teacher stood stunned and shocked and the whole class was speechless. That day, a small village girl told everyone all about the precious gifts that God has given us, which truly are the wonders of world.
Moral: - Value what we have, use what we have, trust what we have. We don't always have to look away to find an inspiration. We can achieve goals by the wonderful gifts we have.

Nikhil Andhale - XII

Community Outreach Programme

On 20th April, we the students of Std IX, X and XI got the chance to participate in the community outreach programme held in our school.

When an organization reaches out to others, the citizens in a community help them find food and shelter and dealing with waste management. Also, we got to know about this year's theme for our outreach programme which was Waste Management.

The programme started with a beautiful and inspirational video motivating the tiny tots and young generation of our future to make our region and our surrounding developed and clean. We learnt some measures to prevent pollution. Like, reducing the use of inorganic fertilizers, segregating wet and dry waste, etc.

We started with the procedure. Big drums were cut in the middle to collect the garbage and they were placed horizontally with holes drilled in the drums to provide proper ventilation. Everywhere two separate garbage bins were used for proper disposal of garbage. After few days we could get manure from the wet garbage drum. Wet garbage could also be used for producing bio-gas. It is also useful in farming as it breaks organic matter with the help of air, water and micro-organisms.

It increases the nutritional value of the soil and is one of the cheapest way to contribute to nature. Thus, we must practice this method to nurture our living.

Rutuja Mokal - IXB

Field Trips.

The benefits of learning through field trip.

If you are going on a field trip, it is important to prepare ourselves by developing our visual literacy and by integrating the trip actively into our curriculum. There are also plenty of opportunities to incorporate the field trip experience back into classroom activities after returning to school. The purpose of the trip is usually observation for education, non-experimental research or provide students with experiences outside their everyday activities, such as going and coming with teachers and their classmates. The primary Std I Field trip was scheduled to Agricultural school to develop observation skill of the student. Std II visited the city hospital to know what are the resources provided for public by the government. Std III visited the school [K.E.S.] to develop communication skill through interaction. Std IV. visited the village women of Varse and Roth interacting with them to understand the day to day problems, difficulties and the challenges faced by them. It was such an excellent experience that children wrote the experience story in their book independently.

Shaurya Dhanawade - IV B

POETRY SECTION

Teacher

Your heart is slightly
Bigger than average
Human heart
And that's because
You are a Teacher.
A good teacher can
Inspire hope and
Ignite the imagination and
Instill the love of learning,
Then you are a very
Good Teacher.

Rutuja R Ghodinde - VI A

Friendship

Friendship is a hand you hold, when things go wrong....
Friendship is a hand you hold, when things go wrong.
Friendship is a shoulder to cry on,
Friendship is something to run for when you are alone.
Friendship just knows that there is someone for you.

Sharvari S More - VII C

LIFE

Good and bad
Are aspects of this life.
People strive for a beautiful life.
People can do anything for a
Comfortable life.
Smiles bring smiles in life;
Gloom brings darkness in life.
Cheers bring happiness in life;
Despair brings sadness in life.
It is true that work is life,
It is so true that hope is life.
And it's also very true that
Success is life.
Make full use of this life.
Live life, Love life.

Gauri R Mehta - VI A

It is my life.

The earth is my mother.
The nature is my brain.
The society is my heart.
The book is my future.
Every house is my story.
The School is my temple.
Teachers are my God.
Work is my aim,

Nitish Surve - II C

The News Paper

We have to read the newspaper daily.
It is fully of knowledge and information about the world.
Newspaper tells us interesting and serious news.
Full form of newspaper is
N- North, E- East, W- West, S-South
P- Present A- And P- Past E-Event R- Report.

Aryan Shingare - III C

Mathematics

Mathematics is full of fun,
With so much to learn
Profits are added
While losses are subtracted.
Degrees are multiplied
And percentage is divided
Geometry is full of mystery
Algebra has a big history.
Integers as different as brothers,
Lines are parallel,
Angles are similar
Maths is necessary
Without it, it is difficult to survive.

Atharv H Mahalle - VII C

WATER

Drink water or bathe in water,
You can never imagine life without water.
Pure water or impure water,
Save every drop of water.

Isha R Patil - VII C

WATER

I'll wash my face with water,
Said Munna to his Nani.
 We all quench our thirst with water,
 We are all alive because of water.
 Water has been with us for ages,
 Its story can fill so many pages!
Somewhere it is dew,
Somewhere it is snow,
Steam is also water as you know.
Water has forms so many,
That is what says my Nani.
 The river flows, the waterfalls sing,
 And water swells in lakes and springs.
Life on earth it has brought,
Watered fields and life they got.
But when the water breaks in floods, great misfortune
it always works.

Sneha A Pramanik - VII C

LEAVES

Red, purple and even yellow,
Some green, wet and loose,
Leaves are of different kinds,
And of different shapes and hues.
 Some are like elephant's ears,
 And some are playful like the devil,
 Some are torn and some are folded,
 And some even eaten- like the betel.
And in the early dawn's darkest hue,
You'll find the flowers cry tear- like dew.
 Some are like butterflies, some like bees,
 Some are hairy and some plain,
 Some dry up to look like thorns,
 And some even resemble cranes.
Whoosh! Whoosh! scuttle and flutter,
In the breeze they all do mutter,
All day long they smile and play,
And in the night they sleep away.
 Leaves are of different kinds,
 And of different shapes and hues.

Sneha A Pramanik - VII C

Articles

Green Panther

Nature is not about what we see, but it's all about what we feel and that's what nature is, one kind of alchemy. Human beings are blessed with so many things in world but there is nothing to be prized than the beauty of nature. Nature always wears the colours of spirit and that's the reason why people should look deep in nature. Then only, it can be understood better and it will be more valuable. Wherever you go, no matter what the weather is, it always brings your own sunshine. At each stage, at every moment, nature always changes it's look as per the climate and performs at its best, to be gorgeous and also with that shedding of leaves, roaring of winds, fragrance of flowers and the trees which are filled with greenery always delights us with millions of happiness.

'Time spent in nature is the time spent in realizing, that's what people don't know it at all and that they never will'. The beauty of sunset, tells us that another day has ended today. The beauty of sunrise, tells us this day is here to stay. The wind blowing on the face, tells us life is a running race, so get inspired by Nature each day, to make your way!

Sanskriti Ghadge - XI

School Anthem

Oh hail! JMRES, we are proud of you
We'll be true to you forever,
We'll carry the flame
You have lit in us
With joy and trust, forever,
We'll march ahead, with
Pride and grace, forever
We'll tread the path
Of glory and fame, forever
We'll imbibe honesty, integrity, forever
We'll let not any harm
come to you, forever
Oh hail! JMRES, we are proud of you
We'll be true to you forever,
Oh hail! JMRES, we salute you, forever
Oh hail! JMRES, we salute you, forever
